## ABOUT ME

I have more than **2 years** of experience in creating and managing scalable **web applications**. I am an enthusiastic **PHP and Laravel** developer. I have created and maintained themes approved by **CodeCanyon** and provided dedicated customer service. I have also worked on **multi-tenant SaaS projects**. Additionally, I have hands-on experience building and integrating **RESTful APIs** for modern applications. With practical experience in **AWS (S3)**, I want to provide effective solutions and grow in a forward-thinking company.

## WORK EXPERIENCE

**Kreative Dev**  
Laravel Developer

NOV 2023 - PRESENT

- Built and optimized scalable Laravel backend systems, achieving CodeCanyon approval.
- Integrated APIs and secured databases for seamless, high-performance web apps.
- Used **S3** services from **AWS** for performance optimization, automated backups, and scalable deployment.
- Built and maintained a dependable **SaaS** platform with subscription-based billing and a multi-tenant architecture.

**PeopleNTech Institute of IT**  
Laravel Developer Intern

SEP 2023 - NOV 2023

- Contributed to Laravel web applications by implementing routing, controllers, Blade views, and CRUD features. Gained foundational MVC and Laravel experience.
