PHP & Laravel Developer with over 2 years of experience building scalable web applications, including multi-tenant SaaS and multi-vendor platforms. Experienced in developing CodeCanyon marketplace-approved products, integrating RESTful APIs, AWS S3, payment gateways, real-time messaging, and AI-assisted booking automation systems.

TECHNICAL SKILLS

Backend	: PHP, Laravel
Frontend	: HTML, CSS, Bootstrap, JavaScript, jQuery,Vue 3
Database	: MySQL
APIs	: RESTful API Integration
Cloud & Tools	: AWS S3, Git, cPanel
Automation	: AI-assisted Booking & Workflow Automation

PROFESSIONAL EXPERIENCE

Kreative Dev, Laravel Developer　　　　　　　　　　　　　　　**NOV 2023 - Present**

- Built and optimized scalable Laravel backend systems for marketplace-approved products, delivering 3 CodeCanyon-approved solutions
- Integrated RESTful APIs and designed secure, scalable database architectures for high-performance applications
- Utilized AWS S3 for asset storage and automated backups while developing and maintaining multi-tenant SaaS platforms, including a live AI-powered hotel booking system
- Implemented real-time Google Maps integration and geolocation-based search for location-aware features

PeopleNTech Institute of IT, Laravel Developer Intern　　　　　**SEP 2023 - NOV 2023**

- Contributed to Laravel web applications using MVC architecture, implementing routing, controllers, Blade views, and CRUD features
- Assisted in backend development, REST API integration, and MySQL database operations
- Gained hands-on experience with debugging, feature enhancements, and real-world project workflows

PROJECTS

Ecommet - Multitenant Ecommerce Website Builder (White Label)　　　　**Live Link**

- Developed and maintained the Laravel backend for a multi-tenant eCommerce SaaS platform with subscription-based billing, multilingual support, subdomain, and custom domain management
- Built core backend features for product management, order processing, reporting, and payment gateway integrations

Bookapp - Multivendor Service & Appointment Booking Laravel Marketplace (SAAS)　　**Live Link**

- Developed the Laravel backend for a multivendor service and appointment booking SaaS platform
- Implemented subscription-based billing, vendor packages, and role-based access control
- Built booking and scheduling modules with Zoom meeting creation and Google Calendar synchronization
- Integrated Google Maps with geolocation-based search for location-aware service discovery

EDUCATION

B.Sc. in Computer Science & Engineering　　　　　　　　　　　**2025 – Present**
Department of Computer Science & Engineering
Uttara University

Diploma in Engineering　　　　　　　　　　　　　　　　　　　**2019 – 2023**
Department of Computer Science & Technology
Faridpur Polytechnic Institute
CGPA: 3.78 / 4.00
